

Dear Sir/Madam,

Every human being has the right to privacy. I do not want to be disturbed at home. I do not want to listen to any commercials on the phone. I do not want sellers, dealers, banks, etc. to call me at home and make me believe I need their stuff.

After a hard day of work I want to go home and relax. We are in the 21st century. If I need information I have the internet, I have the newspapers, the TV, the Radio and THE JUNK MAIL. Let them put their commercials on internet. My telephone IS PRIVATE. It is to keep in touch with my family, my friends. The persons I am doing business with can contact me because I want to, and that is a VERY limited number.

The Indiana's Telephone Privacy law MUST STAND! WE NEED PRIVACY!

SINCERELY YOURS

DRAGOS AMARIE
